NEW SALT CONCERN IS GETTING BUSY

Machinery for pumping and for refining the salt is being shipped to Clear Lake, Millard county, by the Solar Springs Salt company, of which J. E. Ray is president and S. A. Greenwood secretary and treasurer.

The company owns 200 acres of land

near Clear Lake and has a refining mill of twenty-four tons daily capacity and all necessary machinery and equipment ready for immediate harvesting and marketing of a practically inexhausti-ble quantity of the best salt west of the Missouri river.

The land is clay, admirably adapted

to forming evaporation basins and the salt supply is from warm salt springs on the property that flow copiously at all seasons of the year. The basins are filled with the salt water to an average depth of about two feet, and in the supplement months varied appropriate that summer months rapid evaporation takes place, dropping salt crystals over the basin floor from a few inches to a foot thick. These crystals solidify upon the floor of the basin like ice until at times horses and wagons can be driven

The salt water percolates through this floor an average of a foot deep through the spring and winter months, but as

the spring and winter months, but as soon as the warm weather comes pure salt crystals drop rapidly upon the salt floor until they cover the floor from three inches to eight inches deep like frost upon ice over the entire surface. One inch of this salt over one acre will yield 125 tons; three inches over 100 acres will yield 37,500 tons.

Coming as the water does from springs and being evaporated in an uninhabited region, far removed from any contaminating influence, the salt is of course pure and clean. An analysis made by William Blum, professor of chemistry at the University of Utah, found it to be 99.69 per cent pure Harms gave a purity of 99.7 per cent. Both of these were for the unrefined salt in its natural state. The company claims that no purer salt can be found anywhere.

anywhere.
So far but a few hundred tons of this salt have been marketed, but the company is now getting ready to pre-pare the product for packing, dairy and table use. They propose to put it up in attractive form and go after the narket in carnest.

NEXT MOVE LIKELY FOR HIGHER PRICES

Logan & Bryan, members New York and Boston stock exchanges and Chicago Board of Trade, 169 South Main street, furnish the following, received over their private wire yesterday:

From Logan & Bryan's New York office—It was intimated quite strongly in Washington reports that negotiations over the New Haven difficulty are progressing favorably and that the matter is likely to be disposed of within a few days. New England investors have for quite a period been kept in a state of suspense and the opinion is entertained in good quarters that much more cheerfulness is likely to prevail if the affairs of the former premier New England in vestment issues are adjusted in such manner as is likely to aid the New Haven in realizing within the course of a few years a more attractive price for its principal subsidiary than could be secured under prevailing conditions.

We learn that efforts are likely to be made in the near future to conduct some important corporate financing thrugh means of long-term bonds instead of notes, and unquestionably the successful disposition of a good sized bond offering would doubtless do much toward stimulating a return of confidence among investors. The suspicion that a goodly portion of recent selling of American issues in London has been for domestic account seems to have been well founded, and continential advices today were rather hopeful, despite reported efforts on the part of the German press to convey the idea of pending hostilities between Russia and Austria. The French are large holders of Russian securities, but Parls today was undisturbed and advices from that quarter suggested that not much reliance is being placed in the nelligerent talk emanating from Berlin. We see no occasion to alter our views with regard

that quarter suggested that not much reliance is being placed in the neiligerent talk emanating from Berlin. We see no occasion to after our views with regard to the outlook for the stock list and believe that, while for a period progress may be slow, nevertheless the next movement of importance will be in the direction of higher prices.

From Paine, Webber & Co., Boston-After a weak opening, the market rallied sharply and considerable covering took place. There was a marked improvement in the situation in Paris, which had a good effect on foreign markets and helped sentiment on this side. In the local market Butte & Superior was the feature, selling to 374 on improved property consentiment on this side. In the local mar-ket Butte & Superior was the feature, selling to 37½ on improved property con-ditions. Old Dominion was again weaker, loiders showing disappointment over divi-dend reduction. The general situation is sound and all that is lacking is confi-dence, and when this is restored we will see much higher prices all around.

Ore Shipments.

The Utah Ore Sampling company re-leased yesterday five carloads of ore from Utah mines and one from Nevada.

Nevadas in San Francisco. Logan & Bryan, 169 South Main street, members New York and Boston stock ex-changes and Chicago board of trade, suply the following, received over their pri-

DALY-JUDGE MINING COMPANY.

The regular quarterly dividend of the Daly-Judge Mining company of 15 per cent, aggregating \$45,000, being dividend No. 13, has been declared payable April 1, 1914, to stockholders of record at closes of business March 20, 1914, on which date the transfer books will close, and reopen on April 1, 1914.

G. W. LAMBOURNE, Treasurer. p1467 2

SANTAQUIN KING

Third Fissure Is Cut and Carries High-grade Galena.

There was sent to this city yesterday from the Santaquin King mine some fine samples of high-grade galena ore. They were brought in by one of the

men who had been working at the mine. This ore is from the third fissure, which was encountered only a short distance in from where the last caves were found. It is a north and south fissure, with a width of about fifteen feet, balf of which is said to be ore bearing of a good grade and the balance a carbonate. It shows more ore at the point which has been tapped than anything yet developed in this property, but this is accounted for in part by being at the greatest depth at which any of the fissures have been

explored.

explored.

L. A. Martin, who is in charge of the work, says this third fissure was intercepted by the tunnel at a vertical depth of about 300 feet. He will visit the property soon in company with an engineer. He thinks this ore, like a large portion of that previously developed, can be shipped direct to the valley smelters and that after he has concluded his examination he will make preparations as quickly as possible to block out the ore and start regular shipments. It will be the plan of the company to start a force to raising in the ore, after the two walls have been tapped on either side of the tunnel where the deposits er side of the tunnel where the deposits have been cut into. These raises will be put up a few feet apart and the ore will be dropped down in the tunnel and sent out through this channel to the surface.

out through this channel to the surface. Development will be continued along the fissures and in places sinking from the tunnel level in the ore will be inaugurated in an effort to ascertain to what depth these deposits make.

The ore is an ideal smelting product and charges on it will be low. The mining costs will be light because the ore breaks down easily and can be brought out through the tunnel without power installation.

EXCHANGE TRADING EXTREMELY LIGHT

Trading on the exchange was excep-ionally quiet vesterday, there being but live sales on the regular call, involving 379 shares of stock and a consideration of \$1459.37. The traders were Silver King Coalition, with 170 shares at \$3.225; Silver King Consolidated, 300 shares at \$1.725; Colorado, 2800 shares in two lots, at 105 cents, and Gold Chain, 100 shares at 18 cents.

MINES OF BEAVER IS MAKING A MINE COUNTY ARE ACTIVE

S. S. Pond, who is in the city from the Cedar-Talisman in Beaver county, reports that the winze on the 500 level at that property is now down beyond the 500 level, a vertical depth of 450 feet. There is fifteen feet of ore in this part of the flasure, some of which is of shipping grade. There is now over a carload of ore in the mine bin which will run over \$40 to the ton. Six men are employed at the property.

Mr. Pond says there is now an unusual amount of activity among Beaver county

amount of activity among Beaver county mines, there being two properties that are steady shippers, five others that are doing much development work, and a number of others active in a smaller way.

PRICE OF COPPER CONTINUES TO SAG

Logan & Bryan, members of the New fork and Boston stock exchanges and Chicago board of trade, received the fol-owing over their private wires vester-

day afternoon:

New York copper metal continues to sag and demand fails to increase with lowered prices. Some of the big producers are offering electro at 144c, but majority are still quoting it at 144c.

New York copper exports for the week ended March 12 were 19,820, increase 2898; month to date 19,830, increase 692; from January 1, 90,236, increase 19,225.

TONOPAH COMPANY'S RECEIPTS \$3,000,000

FEBRUARY RESULTS AT GOLDFIELD CON.

A. H. Howe, secretary and treasurer, vesterday made public the following pre-liminary estimate of the production and earnings of the Goldfield Consolidated Mines company for the month of February, says the Tonopah Bonanza.

Total tons milled, 25,774; gross values recovered, \$244,000; operating expenses, \$165,000; net realization, \$179,000.

Bad Roads Stop Hauling. Special to The Tribune.

Special to The Tribune.

EUREKA, March 12.—Ore hauling has stopped temporarily at the Sharp mine in Tooele county, the wagon roads being in such condition that it is impossible to handle any kind of a load between the mine and the railroad. A small force of men will be kept at work in the mine and the regular shipments will be resumed as soon as the wagon roads improve.

Metal Market.

Metal prices posted in yesterday's Salt Lake markets were as follows: Silver, 58 cents; lead, \$4; copper, \$14.10.

Ore and Bullion.

McCornick & Co., bankers, announced the receipt yesterday of ore valued at \$90,000, and bullion shipped out valued at \$50,000, a total movement for the day of \$140,000.

Mining Notes.

W. R. Calvert of the firm of Fisher & Calvert, geologists and engineers, is on a professional trip to Montana.

STOCK MARKET STARTS OFF WITH CONSIDERABLE CHEER

Trading Relapses Into Extreme Dullness by Noon; Favorable Bank Statement Is

Expected.

By BROADAN WALL. By International News Service

NEW YORK, March 13 .- "London feels more cheerful," came a message under the

more cheerful," came a message under the sea. Within a few minutes Steel common rose a point and Canadian Pacific jumped from 203% to 206%. Foreign optimism did not follow the market with buying orders, and by noon trading had relapsed into extreme duliness.

Teday's stock market was "all on the floor," and the rapidity and extent of the rise was due entirely to the flooping about of the professional trader, who had rather a bad day of it.

Stocks are oversold. New Haven is an excellent illustration of this condition. Rumors that a compromise had been reached with the government brought a two-point rally which carried the price to 70%. Chesapeake & Ohlo rose as much when attempts were made to cover. St. Paul gained a point, and it may be discovered that short sales of this stock will prove expensive to those who rely upon the destructive assistance of the interstate commerce commission.

On the appearance of strength in the

merce commission.

On the appearance of strength in the general market, Bethlehem Steel issues were moved up. Sugar recovered to nearly par and the copper stocks were almost strong.

Studebaker Advances.

Studebaker was advanced from about 26 to 29, and the preferred made a gain of three points. Very satisfactory reports are current regarding the forthcoming annual statement that may be expected to justify a greater degree of confidence in the company. are current regarding the forthcoming annual statement that may be expected to justify a greater degree of confidence in the company.

Weatinghouse was firm, rising to 745 Missouri, Kansas & Texas shares were heavy. Denver preferred declined below

RUMORS UTILIZED

Chicago.

articles, too, showed a rise—corn ic to ic oats to and provisions 75c to 10@ 155c.

War talk quickly brought denials that any serious trouble was in prospect Furthermore, the denials were emphasized by the fact that consols closed strong, with a substantial gain. It was evident, however, that the trade had been caught in an oversold condition and there was consequently but little action from the top prices reached.

Preceding the bulge in the wheat market, July delivery especially was under pressure from the bears. Larger world shipments and highly favorable domestic crop reports constituted the chief reassons. It was said the amount of winter killing promised to be the smallest on record.

Corn gathered strength throughout the killing promised to be the smallest on record.

Corn gathered strength throughout the session. Cash demand was better and smaller receipts were predicted. Rumors of export sales appeared to be unfounded, except 5000 bushels to go to Cuba. Shorts were particularly uneasy over advices of liberal sales at Missouri river centers.

Oats moved up with corn and wheat. Elevator interests did considerable buying of May.

Highest prices for hogs this season carried the provision market upgrade.

One of the larger receivers and provided to the larger received to the provision market upgrade.

One of the larger receivers and provided to the larger received to the larger Elevator interests did considerable buy-ing of May.

Highest prices for hogs this season carried the provision market upgrade.

One of the larger packers undoubtedly bought today through brokers.

A. T. WEBB, DIVIDEND NOTICE.

Eagle & Blue Bell Mining company.

Dated February 26, 1914 JAMES P. GRAVES

MARKET FOR COPPER CONTINUES QUIET

Prices Inclined to Go Lower in New-York; Lead and Spelter Quiet.

Copper (electro.) ... \$14.12}@14.25 Lead, New York ... \$3.95@4.05 Bar sliver ... 55c Silver in London ... 2524

lo again, and Missouri Pacific railled but feebly.

United States Rubber stocks showed activity with advancing prices. Thanks to recent heavy storms, February earnings are reported as large, and March promizes a further increase.

The failure of the Rumley company to adjust interest payments on its notes due March 2 was responsible for the three-point break in the preferred. It is believed, however, that arrangements can be reached by Monday that will avoid the necessity of a receivership.

Denver & Rio Grande refunding 5s were weak. Rock Island collateral 4s again monopolized attention in the bond crowd, railying from 391 to 491. Other Rock Island issues were barely steady. NEW YORK, March 13.-Lead, quiet, \$2.95@4.95; London, £19 17s 6d. Spelter, quiet, \$4.25@5.25; London, £21 12s 6d.

Copper, quiet; standard spot and April, \$13.25@14.00; electrolytic, \$14.124@14.28; lake, nominal; castings, \$14.00@14.12. Tin, quiet; spot, \$37.70@38.00; June,

\$38.00@38.37.

Antimony, dull; Cookson's, \$7.25.

Iron, quiet and unchanged.

London copper, quiet; spot, £63; futures, £63 11s 3d.

Tin, quiet; spot, £172 10s; futures, £174 10s.

Iron—Cleveland warrants, 50s 6d.
